# heating

energy-efficient

Energy-efficient electric water heating is clean, quiet, worry-free and can save you money. No flues and no venting mean easy, flexible installation and no heat escaping up the flue.

A Marathon water heater is a smart choice because it's built to last as long as you own your home with environmentally friendly and energy-saving features that will save you money – year after year.

**b** Make the smart choice for a new home with a high-
